

# induction heating system

The Eurotec Autotron Induction Heating System features the following:

- Four heating attachments.**  
 Attachments for removing windscreens, dents, body mouldings and rusted bolts are included.
- User friendly design.**  
 The Autotron has an infinitely adjustable power control knob, a large visible output power meter, a solid powder coated steel chassis and strong handle, all designed to make it easier for the operator.
- Powerful & Safe.**  
 This unit is the most powerful, safe, versatile and complete heating system available to the collision repair industry and other automotive professionals. It easily removes and re-installs adhesive bonded car parts, such as encapsulated windows, SMC panels, side mouldings and after market parts like plastic vent shades and fender flares.
- Instantly cure high solids primer.**  
 Primer is block sandable in 60 seconds, without solvent popping and shrinkage.
- Many other applications.**  
 Remove labels, heat rusted nuts, re-use OEM tape and paintless dent repair are all possible with the Autotron.

Includes trolley & below attachments:

## TECHNICAL SPECIFICATIONS

Size	235mm wide x 356mm deep x 207mm high
Weight	12 kg
Input Voltage	240VAC 50/60 Hz 1 phase
Input Current	10 amps
Output Power	1500/3000 watts
Output Voltage	400 Vrms 45-60kHz 1-phase
Output Current	60 amps
Cooling	Forced air cooling via internal cooling fans
Operating Temperature	52° Maximum
